Victor Maragioglio

I'm a Junior Front-End Developer with a passion for coding and an eye for UX/UI design. My journey has taken me through various experiences, from traveling and volunteering around Europe to settling in Berlin to pursue my interest in coding. As a Junior Front-End Developer, I'm always eager to learn new techniques and technologies and to push the limits of what's possible with code.

Currently, I'm working with Shopify Liquid Template Language, proficiently re-structuring Shopify's Liquid architecture for enhanced performance and scalability.
